Designer Notes

Generous in size, the Urban Form Harvest Table is a crowd pleaser for large gathering spaces. One of our customers approached us asking for a 12 ft harvest style table and suggested that putting two Urban Form tables end-to-end would create a great piece of furniture. We removed the lumber where the two tables met and that's when we had the "Ah-ha" moment and agreed wholeheartedly. The cost dropped considerably since we didn't need the added lumber on the ends, so it was a win-win situation for everyone. We all appreciate lower costs, especially when we need to work within a set budget.

The table is available in 5ft and 6 ft lengths and when doubled up it provides the users with plenty of space for socializing and gathering together. The table can also be customized further by widths of up to 4 ft for even more to join in the fun.
